Testimonials

Diligent, charismatic and builds a strong rapport with commercial clients. He has an innate ability to grasp complex technical issues in difficult areas. His skilled cross examination, polite

manner and impressive jury speeches are bound to improve the chances of success for any client facing trial or seeking to mitigate sentence.

Outstanding KC whose knowledge of the law and ability to intricately examine witnesses is a skill which quite frankly, very few have.

Although best known for his work in high profile murder trials, he has a burgeoning practice in the fields of corporate crime and regulatory law. Having instructed him in multiple health & safety fatality matters in recent years, I would recommend him to anyone looking for counsel in these areas.

Diligent, organised, compassionate, a hugely skilled (if need be ferocious) cross-examiner and gifted with a seemingly natural ability to deliver compelling, articulate and persuasive closing arguments. He is, and remains, my first choice of Counsel.

If you have seen Ian Duguid on his feet, it is no surprise that he is regarded as one of the country's leading KCs. Devastating in cross, and commanding the ear of the court, he is utterly captivating in front of the jury.

Everyone, myself included was left mesmerised by the way you closed the defence. A true masterclass.

I have had the privilege of instructing him in multiple high profile criminal cases and his excellence shines through. His rapport with all court personnel and accused persons is natural and unforced. An unquantifiable talent.
